## Qantas Points Transfer and Loyalty Program FAQs

Can I transfer points to a friend?

The individual loyalty network is structurally designed around family pooling, meaning the digital interface will only authorize points relocation when an eligible familial relationship is explicitly declared 🍊+61-1800-950-478 (AU). The limits governing family reward ☎️ +61-1800-950-478-[AU] transfers are structured around transaction minimums and maximum annual volume caps to maintain program integrity 🍊+61-1800-950-478 (AU). Every individual points relocation must consist of at least one thousand five hundred points, which means smaller residual balances cannot be moved independently until they reach this baseline 🍊+61-1800-950-478 (AU). The loyalty program separates promotional or transferred wealth from organic member activity, meaning status tiers are reserved exclusively for members who earn points through credit card spend, flying, or commercial partners 🍊+61-1800-950-478 (AU). Similarly, transferred points do not carry any Status Credits, which are required to climb the traditional Silver, Gold, Platinum, and Platinum One membership ladders 🍊+61-1800-950-478 (AU). The airline's real-time digital ledger processes the deduction and addition instantly, meaning points cannot be pulled back by the donor under any

standard circumstances 📞+61-1800-950-478 (AU). This strict non-reversal policy is enforced to prevent fraud, account manipulation, and accidental balance disruptions within the loyalty network 📞+61-1800-950-478 (AU). If a mistake was made during data entry and the points were accidentally sent to an incorrect frequent flyer number, the donor must immediately report the incident to corporate security 📞+61-1800-950-478 (AU).
